GT Composite Guardian

Patent pending

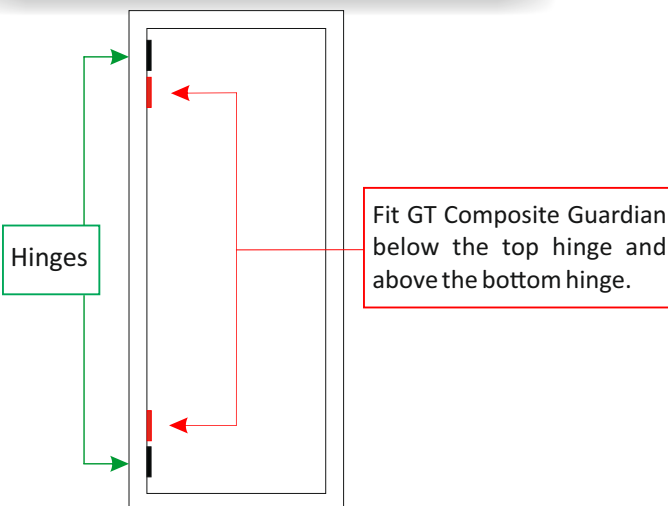

GT Composite Guardian is a revolutionary design in hinge protection system for composite doors.

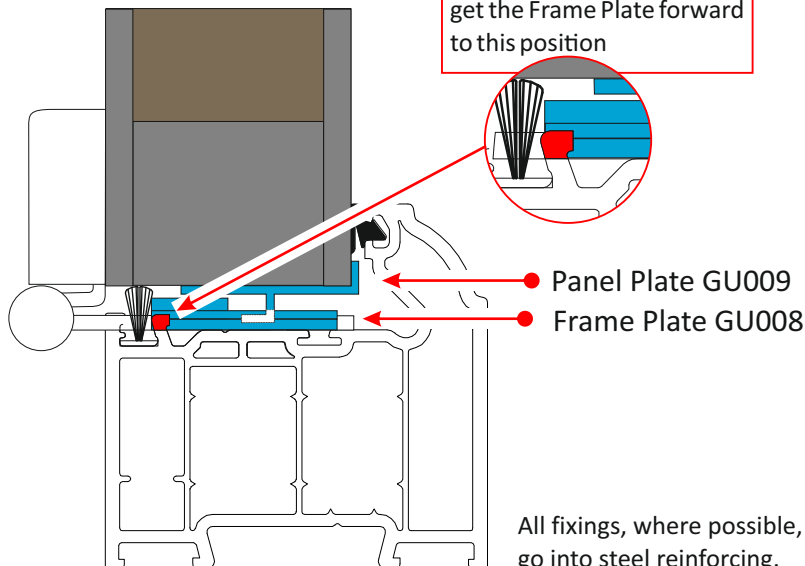

It comprises of two high tensile steel components, a frame plate and a panel plate.

This product will offer a higher security rating for composite doors when tested to UK and European standards.

Part Numbers;
Panel Plate GU009
Frame Plate GU008

Remove bead leg locally to get the Frame Plate forward to this position

All drawings are not to scale
Reinforcement and fixings have been omitted for clarity
UK Fasteners screws were used for testing when required
